Bookings

Scheduling made simple.

CONRIOR
Pushing Limits

Bookings is an intuitive appointment scheduling software for all people-facing businesses and departments. With Bookings, you can avoid phone calls, back-and-forth emails, and repetitive tasks. Let customers self-schedule while you grow your business.

Product features

◇ White-labeled booking page

◇ Four booking types: one-on-one, group, resource, and collective

◇ Team scheduling

◇ Scheduling rules

◇ Calendar sync

◇ Automated email notifications

◇ Payment collection

◇ Integrations

Why choose Bookings?

Hassle-free scheduling

Simply share a booking page URL or embed the booking page into your website to eliminate all manual, time-consuming scheduling tasks.

Enhanced team scheduling

Assign team members to various meeting types. Meet customers individually or as a team without back-and-forth communication.

Efficient appointment management

Access all customer appointments from a central dashboard. Join online meetings instantly, cancel or reschedule effortlessly, generate and export reports easily.

Tight integration with the Zoho ecosystem

Build a well-connected scheduling system for your business by integrating with other apps like CRM, Desk, SalesIQ, Meeting, Assist, and Flow.

"**Bookings** is a fantastic platform for scheduling and managing appointments. I've been using it for my business and it has completely trans- formed the way I handle my appointments."

Morgan DiGiorgio,
Senior Vice President Sales & Marketing, DirectMail2.0
