

Happy employees build successful businesses.

What better way to get a headstart than by taking care of the most important aspect of your business—your employees.

Toyota Mithra, our customized version of Zoho Connect is a tremendous tool to reach out to our employees quickly, clearly, and safely, for any company and team communication. It gives employees a way to voice out their grievances, and access all forms digitally, which helps us listen and offer our best support to all employees as well as trainees.

Deemanth N
Deputy Manager, ER-HR

A better employee experience at every step.

Enable **cross-functional collaboration** by giving all of your teams access to tools and resources.

Ensure a **consistent and healthy culture** across your organization that builds trustworthy employee relations.

Enhance your **internal communications** and reach every employee from a single platform.

Keep all of your **employees engaged** by giving them a platform to share their ideas and feedback.

How can you benefit from Connect?

Company-wide communication, simplified.

News, announcements, and updates—communicate everything effectively and understand what employees think through sentiment analysis.

Bring all employees together.

Through town halls and live broadcasts, foster inclusiveness by allowing all employees to interact freely with company leadership.

Boost collective and individual productivity.

Harness collective potential through idea-sharing, create collaborative spaces for teams, and break down silos with common document and knowledge repositories.

Improve engagement, strengthen culture.

Reward and recognize employees for their efforts, conduct surveys to check the pulse of your organization, and create listening spaces to support all employees.

Flexible, scalable, customizable.

Streamline processes with automation, personalize with themes, and enhance accessibility with a custom domain and branded mobile apps.
